Dear Ms Wilson,

Re: Planned Woolworths' Development in Mosman

Further to the Community Meeting held on the 22nd October regarding the plans by Woolworths to seek approval for a massive development between Belmont Rd and Gouldsbury St., a group has been formed with the objective of protecting the character and amenity of our village. The name of this group is Mosman Village Community and an Organising Committee, along with a website established.

The website can be found at mosmanvillagecommunity.org.

Concerns expressed at that meeting ranged across the inevitable and significant worsening of traffic congestion along Military Rd and surrounding streets, as well as the impact on local retailers and destruction of our Village atmosphere.

In order to achieve our objective we will be discouraging the Company from proceeding with their plans, and are writing to seek your support in our opposition.

We accept Woolworths have not, so far, released their plans for Mosman, which may be part of a strategy to wear down local resistance. However, the scale of their acquisitions, which they acknowledge, is more than sufficient to warrant the Community's concern. We would be most disappointed if this lack of a detailed plan formed the basis of inaction by those who represent us.

We look forward to your response and support.

Yours sincerely,

Jim Slavin
(on behalf of the Organising Committee)
